Douglas Hirsche Has Narrow Escape

Mr. and Mrs. N. E. Hirsche not to mention their 10 year old son Douglas had a bad fright while they were in Waterton recenly. Douglas and Max Gibb decided to climb the mountain above Cameron Falls and when they reached the agreed point, Douglas started down again while Max took a few minutes to carve his name up there. While running down the mountain, Douglas tripped on his shoe lace and as he straightened up after tying it, he lost his balance and fell over the cliff; the last thing he remembered was hitting a tree.

When he awakened he wandered arround until he noticed some people way up on the road. He finally managed to attract their attention and remained there until the RCMP reached him. Even then his troubles weren't over as he had to cross the creek just above the dam by hanging on to a rope the police tossed to him. However it was then decided it would be easier to get up the mountain on the other side, so back he went, with the police swimming across this time.

In the meantime Max hurried down calling and looking for Douglas to no avail. When he arrived back a the cab in, Hirsches contacted the Park Superintendent who organized a search party.

It was five hours later before Douglas was finally back with his family again, none the worse for his experience except exhaustion and bruises—but wont he have a tale to tell his grandchildren!

ABOUT OUR EDITORIAL

Dare Devils Thrill Local Crowd

The Congress of Canadian Dare Devils show here on Thursday, July 9 brought thrills and chills to the crowd that gathered at the Fairground to witness the show that was sponsored jointy by the Canadian Legion and Sugar City Motors.

It was unfortunate that the show was quite late in getting started but the wait was enlivened by the antics of Shorty and Toto, The Merineau Brothers, miget clowns from Montreal

Injuries to the shows two top performers and mechanical trouble with some of the cars slowed the show down considerably but even at that good entertainment was provvided by such experts at thrills as Buttercup Pearce, Lucky Carl, "Thunderhead" Jack Darlyson and Tim Cooke.

Buttercup and Lucky showed the crowd just how far a stock Ford car be tilted and still manage to stay right side up by driving at high speed over ramps of various heights. "Thunderhead" was the motorcyclist who made daring jumps as well as driving head long through a flaming wooden barrier. Tim took his life in his hands as he was dragged by a speeding car, through a flaming pool of gas he wore a slide pad to protect his face. Shorty and Toto also showed extreme bravery with their 'daring' feats of driving (and being driven). As acrobat clowns they are probably among the best.

The highlight of the evening was the car being driven through the gigantic cannon, with only a very few inches of clearance on either side. At about 55 miles per. hour Lucky Carl drove the stock car Ford that has survived 120 such jumps, through the cannon so that it sped through space for about 80 feet before landing safely on a downward ramp. Just as the car flashed through the muzzle of the cannon Buttercup Pearce drove a 1953 Ford Convertible, with top down, underneath the flying car—neither of the above feats are guaranteed to make an old man out of the drivers.

An interesting note in connection with these drivers is that they do all this without the benefit of being covered by insurance of any kind.

The amiable master of ceremonies for the show was a well-known sports and feature writer, Tommy Mc Clure who was kept up the interest of the crowd even while repears were being attempted on the cars.

The Dare Devils are sponsored by the Ford Motor Company of Canada but the show s owned and managed by Mitchell Robinson with head office in Montreal. This is the first year that this Canadian show has toured the States and the reception there was gratifying. It was undertaken as a Coronation Goodwill Venture and has really done a fine job..

Anyone interested in travelling should join the show for they travel between 40 and 45 thousand miles per year besides what the Dare Devils drive durng the shows.

The Legion and Sugar City Motors are to be congratulated on bringing this show to town and it is hoped that next time it comes round all the drivers and all the cars will be present and participating so that the many more people attending will really come away talking.

IT APPLIES HERE TOO

Loyalty to a cause or a place has helped many causes and places to become great. Disloyalty has ruined Towns and Countries and Causes . . . no matter how deserving. We do not think that anyone is wilfully disloyal to Cardson who lives in Cardston. We are here by right of our own choice, as a place to make our home. No one has compelled us to come here or live Just what kind of a town do we want to live in? Is it one with bright signs clean streets, attractive business fronts, well painted houses and kept lawns? Surely it is. How would we feel if the reverse were true of Cardston. Isn't it really depressing to go down Main Street and see some former businesses closed and the store fronts vacant? What is the cause; Just plain lack of dollars coming in to keep the place going, that's all as a rule.

It is fine when we can afford to take long holidays and big and little trips to neighboring cities across the line, or to Calgary, Edmonton or even Lethbridge. Our past prosperity has given us enough money to take these trips and make these excursions of many miles. Few of us really count the cost. It takes about 10¢ a mile to run our car, not just gas and oil, but wear and tear, tire wear and depreciation on our $2,000 to $4,000 investment on these four wheels. That is not the whole cost. We ALWAYS spend money for clothes, furniture, tools, souvenirs and what- not when we go away. We say to ourselves, "Oh, ook here, Corn Flakes are only 16¢ a package here while they are 19¢ in Cardston. I'll take home a dozen." And so it goes, and before we know it we have spent from $10 to $100 'out of town'. And just what does that mean to local business? — $100 less in circulation in Cardston. Multiply this a hundred times in a summer, or 200 times or more and you have the picture. $20,000 to $100,000 not spent here but elsewhere has robbed us of usual prosperity, businesses close up others run on a close margin and some barely get by. Why, and who is responsible? Look in the mirror and see the guilty party!

Now we all want Cardston to prosper; we want business to be good; we want OUR busness to be profitable but it will not be if we spend all our surplus OUT OF TOWN. It's the dollars we turn loose in the town that pro fit all of us within the town NOT those we spend in the States or elsewhere. They are gone forever so far as town business is concerned.

Let's take stock a little folks. When we are going on a trip and want new clothes lets buy them BEFORE we go. Stock up your grub box from the local store. Buy your tools at the local hard ware Go to your own hairdresser and get shingled where it costs only 75¢— not a $1.00 to $1.25, as it does almost anywhere we are going! It may cost you a cent or two more for goods delivered here in town, for the extra freight, and taxes paid by the merchant bargains' is eaten up in car expense, as his own. All you save in these 'city some of our spending desires in favor and worse you are hurting your own business and detracting from the splendid appearance of your own town by spending your money abroad.

Let's stick to our own cammunity. Help build it up. Dollars spent in Card ston roll around and back to us. NEVER a cent spent in The Falls, Kalispel or Salt Lake City or elsewhere do.

The pride we have in our town can be shown and the place built up by loyal spending at home. Our stores are well stocked . The few items not on hand are very few. Let us curtail some ofour spending desires in favor of our town. We will then all be better off and we will know the satisfaction of helping to build up our own and making our splendid town bigger and better. Remember too, we are supporting ourselves, for these dollars spent at home sometimes come back to us. Those spent abroad never do!

Mr. and Mrs. Lyman Jacobs, Richard and Marolyn enjoyed the Parade and Stampede in Calgary.
